**Subject:** Request for Examination of Institutional Handling of a GDPR-Related Issue  
Affecting Multiple Member States

Dear European Ombudsman,

I respectfully request your office to examine whether the European institutions have adequately responded to a matter involving the systemic disclosure of former vehicle holder data in Germany.

This practice raises concerns regarding:

- the consistent enforcement of the GDPR across Member States,
- the protection of fundamental rights under EU law,
- and the potential failure of national and European bodies to address a cross-border data protection risk.

I ask the Ombudsman to assess whether further institutional action is warranted, including inquiry steps or recommendations to the European Commission or other competent bodies.

Yours faithfully,

**Dennis Gur**
